# Typing Pal JUNIOR

## Have fun while learning to type!

A quick, complete and personalized method to learn keyboard typing through a user-friendly and entertaining interface.

2 fun games to develop speed and dexterity

Nearly 30 dictations to practice keyboard accuracy and spelling, 80 exercises and 30 practice texts, follow-up exercises adapted to your strengths and weaknesses

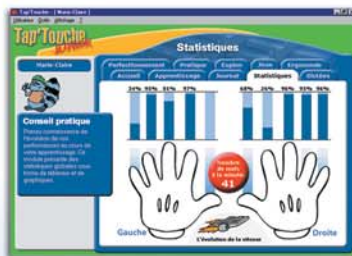

Exercises for the numeric keypad

A fun assistant to accompany you

Practical tools: ergonomic tips, character display,

A spy to evaluate your performance when you use other software (word processing, E-mail)

A Web site offering supplementary challenges (statistics comparisons, animated downloads)

### Statistics

At a glance, check the performance of each of your fingers! With these statistics you can follow your progress step by step and thus improve your weaknesses.

### Learning

Learn to touch type in a few hours with this method adapted to your skill level by following short lessons step-by-step; funny and amusing animations accompany each lesson.

### Dictations

Dictations to practice keyboard accuracy and spelling.  
Dictation speed automatically adjusts to your typing speed.

### Games

Blast asteroids before they hit your spaceship! You need only to type the words travelling in front of you for the laser cannon to blast them.
